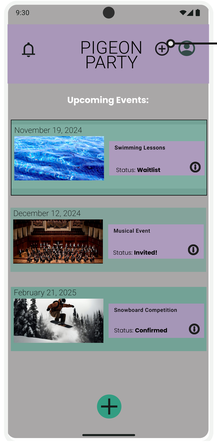
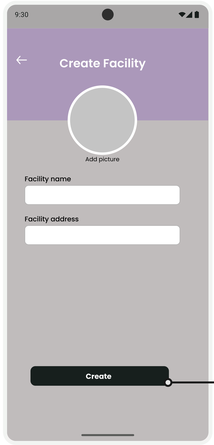
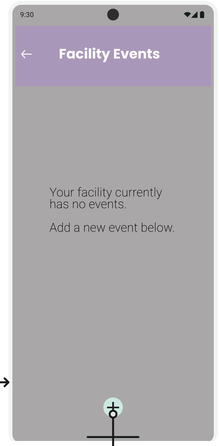
Organizer Story Board

If user has not created a facility



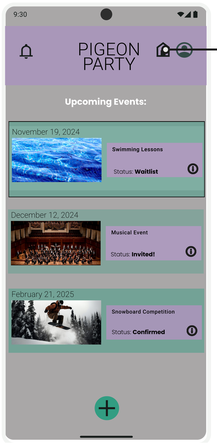


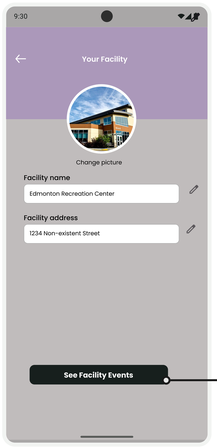


When a new facility is created, the event list will be empty as there's no current events being hosted.

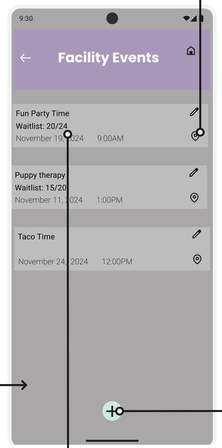
An entrant can create a facility thus giving them an organizer role.

If user already has a facilitiy

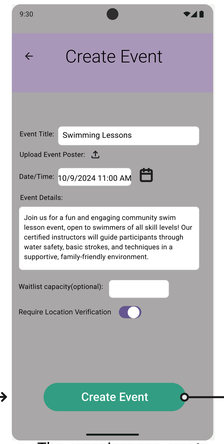




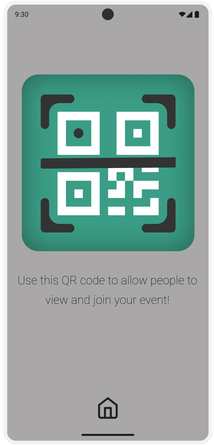
The organizer can edit the name, address and photo of a preexisting facility.



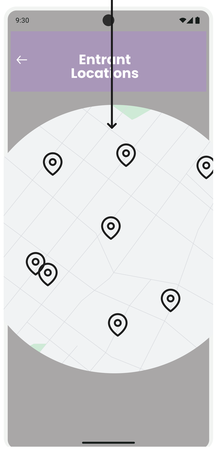
The organizer can view and edit a list of their events.



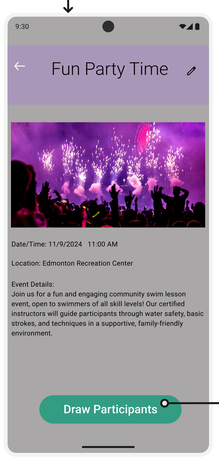
The organizer can create a new event. They have the ability to set a wait-list capacity and geolocation verification.



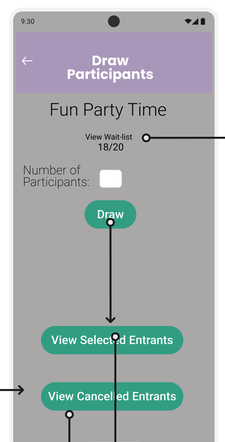
A QR code is generated for the organizers event.



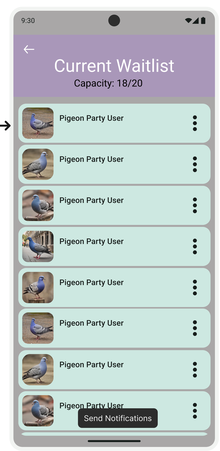
Organizer can view where entrants have joined the waitlist from



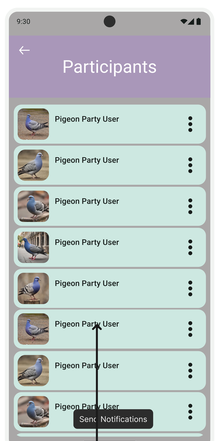
The organizer can view their event and draw participants from the wait-list.



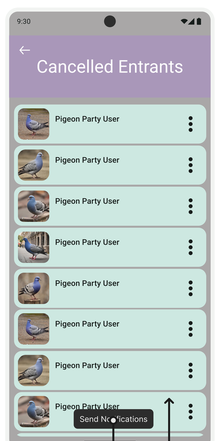
The organizer can choose the amount of participants to draw



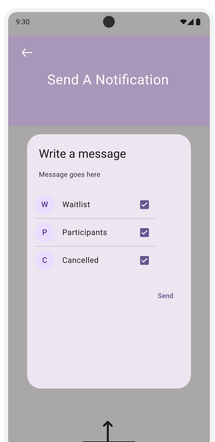
Organizer can view the list of entrants on the waitlist



The organizer can view the list of participants invited



The organizer can view the list of entrants who were not invited



The organizer can send notifications to particpants on the wailist, invited or cancelled entrants.
